## SUMMARY OF APPROPRIATIONS

The Committee recommends total appropriations of \$51,353,900,000 for the Department of State, foreign operations, and related programs for fiscal year 2018. Of this amount, \$51,195,000,000, including \$20,785,000,000 for Overseas Contingency Operations [OCO], is for non-emergency discretionary programs, and \$158,900,000 is for mandatory programs.

The Committee recommendation includes funds designated as OCO under certain account headings in titles I through IV, rather than in a separate title as in prior fiscal years. Unless otherwise noted, comparisons between funding levels in the act and this report to prior fiscal years, and to the President's budget request, include the total of base and OCO funds. The Committee notes that the total for OCO is equal to the fiscal year 2017 enacted level, including \$4,300,000,000 in the Security Assistance Appropriations Act, 2017 (division B of Public Law 114–254) and \$990,000,000 for famine relief included in the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2017 (division J of Public Law 115–31).

Section 7086 of the act provides that funds designated as OCO in the act are made available without regard to geographic limitation.

The Committee's recommendations for fiscal year 2018, by title, compared to the President's budget request, are allocated according to the following table:

## INTRODUCTION

### THE FISCAL YEAR 2018 BUDGET REQUEST

The President is required by the Budget and Accounting Act, 1921 (section 201 of Public Law 67–13) to submit a budget to the Congress that includes “[e]stimates of the expenditures and appropriations necessary in his judgement for the support of the Government for the ensuing fiscal year.”

On May 23, 2017, President Donald Trump submitted to the Congress the fiscal year 2018 budget of the United States [U.S.] Government entitled “A New Foundation for American Greatness”, and asserted in “The Budget Message of the President” that “[i]n these dangerous times, our increased attention to public safety and national security sends a clear message to the world—a message of American strength and resolve.”

This message is not reflected in the International Affairs budget request of \$40,521,826,000, a 30 percent cut below the fiscal year 2017 enacted level.

The lessons-learned since September 11, 2001, include the reality that defense alone does not provide for American strength and resolve abroad. Battlefield technology and firepower cannot replace diplomacy and development. The administration’s apparent doctrine of retreat, which also includes distancing the United States from collective and multilateral dispute resolution frameworks, serves only to weaken America’s standing in the world.

Richard Haass, former Director of Policy and Planning at the Department of State, warns in “A World in Disarray: American Foreign Policy and the Crisis of the Old Order” that an abrupt change in U.S. engagement in the world “is a prescription for greater instability at the regional level, less concerted action at the global level, and heightened chance for great-power competition”. This dynamic is already unfolding.

\* \* \*

The Office of Management and Budget [OMB] arbitrarily set the topline funding level for the International Affairs budget without input from the Department of State, the U.S. Agency for International Development [USAID], the National Security Council, or any other national security agency. This forced the Department of State and USAID to randomly establish country and program-level allocations that lacked any justification.

When the budget was publicly released, the absence of a communications strategy caused confusion and concern in foreign capitals regarding the proposed, unjustified cuts—and allowed America’s competitors, notably the People’s Republic of China [PRC] and Russia, to hijack our national security narrative.

At the macro level, the budget proposes to eliminate more than 2,500 diplomatic and development positions. Compared to the prior fiscal year, diplomatic security is cut by 36 percent; international HIV/AIDS programs are reduced by 17 percent; International Disaster Assistance and food aid is cut by 77 percent; and Migration and Refugee Assistance is reduced by 18 percent.

At the micro level, key allies and countries of strategic importance were demoted or abandoned. For example, assistance for Georgia, a repeated target of Russian aggression, is cut by 75 percent, and aid for Sri Lanka, strategically positioned along key shipping lanes and emerging from decades of conflict, is cut by 91 percent.

On June 13, 2017, 16 retired four-star generals and admirals submitted testimony to the Committee asserting: “The severe cuts to the State Department and USAID that the administration has

proposed will make America less safe, and Congress should reject them.”

\* \* \*

The Center for Strategic and International Studies Task Force Report entitled “Reforming and Reorganizing U.S. Foreign Assistance: Increased Efficiency and Effectiveness” (July 2017) provides a more thoughtful and realistic approach to improving America’s foreign policy architecture and programs than the reckless cuts proposed in the International Affairs budget request. The report succinctly underscores the importance of foreign assistance:

In the last 70 years alone, U.S. foreign assistance has helped to rebuild Europe and launch the economic successes of the East Asia tigers. It sparked the Green Revolution that brought modern agriculture to Asia, has developed new trading partners, fostered democracy, good governance, and free markets, reduced poverty, saved lives after the 2004 tsunami, helped countries respond to the Ebola pandemic, reduced malaria deaths by half, and slowed the spread of HIV/AIDS.

Diplomacy and development remain cost effective national security tools. In fiscal year 2016, International Affairs funding totaled 1 percent of the Federal budget, compared to 18.9 percent for Defense spending. In fiscal year 2017, the budget totaled 0.3 percent of Gross Domestic Product, compared to 3.3 percent for Defense. In terms of manpower, the Department of Defense workforce is 26 times larger than that of the Department of State and USAID combined.

Despite the critical role of diplomacy and development in our national security framework, the Department of State, foreign operations, and related programs act remains an assemblage of annual bills and emergency supplemental or OCO funding. As the Committee noted in the Introduction to Senate Report 114–79 accompanying the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2016 (S. 1725, as reported to the Senate on July 9, 2015):

[f]rom fiscal years 2002 to 2010, the appropriations process for Department of State operations and foreign assistance under the jurisdiction of the subcommittee included a patchwork of 9 annual bills and 14 emergency supplemental appropriations acts. . . . In fiscal year 2012, OCO funding replaced most emergency supplemental spending, and the act has included OCO appropriations in every fiscal year since.

\* \* \*

To help rebalance the U.S. national security framework and require clarity from the administration on its foreign policy and grand strategy, section 7069(a) of the act requires the Secretary of State, in consultation with the USAID Administrator and the heads of other relevant Federal departments and agencies, to submit to the appropriate congressional committees a comprehensive

National Diplomacy and Development Strategy [NDDS]. The requirements for the NDDS are similar to those in the National Diplomacy and Development Strategy Act of 2017 (S. 1228, as introduced in the Senate on May 24, 2017), and are further explained under title VII of this report.

Section 7069(b) of the act requires the Secretary of State to submit to the appropriate congressional committees an update to the Quadrennial Diplomacy and Development Review, 2015 not later than January 31, 2019.

\* \* \*

Article I, Section 9 of the U.S. Constitution states that “No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law.” As President Franklin D. Roosevelt noted during a press conference on July 23, 1937 regarding Federal spending “[i]t is the duty of the President to propose and it is the privilege of the Congress to dispose.”

Therefore, the Committee recommends discretionary appropriations of \$51,195,000,000, which is \$10,673,174,000 above the President’s fiscal year 2018 budget request, for the Department of State, foreign operations, and related programs, details of which are included in the act and this report.

*Title VI: Export-Import Bank of the United States [EXIM]; Overseas Private Investment Corporation [OPIC]; and Trade and Development Agency [TDA].*

*Appropriate Congressional Committees.*—Pursuant to section 7034(r)(1) of the act and unless expressly provided to the contrary, the term “appropriate congressional committees” as used in the act and this report means the Committees on Appropriations and Foreign Relations of the Senate and the Committees on Appropriations and Foreign Affairs of the House of Representatives.

*Extremist Organizations.*—For purposes of the act and this report, the term “extremist organization” means the Islamic State of Iraq and Syria [ISIS]; organizations affiliated with ISIS; a foreign organization that is determined to be engaged in terrorist activity, as defined in section 212(a)(3)(B) of the Immigration and Nationality Act (8 U.S.C. 1182); and other entities designated as foreign terrorist organizations [FTOs] pursuant to section 219 of such act. The term “extremist” means an individual who knowingly facilitates or participates in an act of extremism. The term “extremism” means the advocacy or use of violence by such organizations or individuals to achieve political or religious goals.

*Program, Project, and Activity.*—For purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), as amended, with respect to appropriations contained in the act the term “program, project, and activity” shall mean any item for which a dollar amount is specified in the act or this report. In addition, the definition of “program, project, and activity” in section 7023 of the act shall apply to the accounts listed in that section. In carrying out any Presidential sequestration, Federal departments and agencies funded by the act shall conform to the definition of “program, project, and activity” described above.

*Regular Notification Procedures.*—Funds in the act that are made available “subject to the regular notification procedures of the Committees on Appropriations” require a separate notification to the Committee 15 days prior to the proposed obligation of funds or other action that is the subject of the notification requirement, regardless of what may be contained in a department or agency’s congressional budget justification [CBJ] or in the operating and spend plans required by section 7076 of the act. Thus, such CBJs and operating and spend plans do not suffice as justification for purposes of satisfying such notification requirement.

#### CONGRESSIONAL BUDGET REQUEST AND JUSTIFICATION

Fiscal year budgets proposed by the President during political transitions often lack the detail and substance required by the Committee for comprehensive review and consideration of proposed allocations. Therefore, OMB shall ensure that sufficient documentation and justification is provided to the Committee by each relevant Federal department and agency in subsequent fiscal year CBJs, including a description of the processes by which the budget was formulated. The Committee remains concerned with the lack of input from any national security agency in the establishment of

the fiscal year 2018 topline funding levels for programs and activities funded by the act.

OMB shall also ensure that CBJ materials for fiscal year 2019 include sufficient justification and funding, and specific plans, for winding down any assistance programs proposed to be significantly reduced or terminated.

Each Federal department and agency funded by the act shall include in subsequent CBJs detailed information on all available resources, including estimated prior year unobligated balances and recoveries, reimbursable agreements, funds transferred pursuant to sections 632(a) and (b) of the Foreign Assistance Act of 1961 [FAA], and significant uses of the Economy Act. Such departments and agencies that use a Working Capital Fund [WCF] shall include in CBJs the total budgetary resources for each office that receives funds from a WCF, and include a table on WCF resources that will serve as a baseline for reprogramming and transfer purposes.

Subsequent CBJs shall also include estimated savings from any proposed office or mission closing or reorganization, elimination of special envoys and other senior level special representatives, and actual prior year representation expenses for each department and agency that is authorized such expenses.

#### COUNTRIES AND ISSUES OF CONCERN

To align more clearly with the Joint Explanatory Statement accompanying division J of Public Law 115–31, countries and issues of concern are included under the relevant general provisions in title VII of this report.

#### NOTWITHSTANDING AUTHORITY

Notwithstanding authority included in any provision of the act shall not be interpreted to exclude the requirements of such provision.

The Secretary of State and USAID Administrator, as appropriate, shall inform the Committee of the use of notwithstanding authority in the submission of country notifications required by section 7015(f) or any other provision of the act.

#### OVERSIGHT, MONITORING, AND EVALUATION

*Foreign Assistance Data Review Findings Report.*—The Secretary of State shall update the report required under this heading in Senate Report 114–290 accompanying the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2017 (S. 3117, as reported to the Senate on June 29, 2016), and submit such report to the Committee in the manner described.

*Public Posting of Office of Inspector General Recommendations.*—The Committee supports efforts by the Department of State Office of Inspector General [OIG] to improve public access to information and streamline congressional oversight by posting unclassified OIG recommendations online and regularly updating the status of such recommendations. The USAID OIG shall undertake a similar effort, and report to the Committee on steps taken to do so not later than 45 days after enactment of the act.

*Report on Monitoring and Evaluation of Programs.*—The Committee underscores the importance of monitoring and evaluating the effectiveness of foreign assistance programs. Independent evaluations, including impact evaluations when appropriate, of such programs are an important method for improving performance and ensuring that taxpayer resources are spent efficiently and effectively. However, the Committee is concerned that the quality of foreign assistance program evaluations varies widely, and the findings and recommendations of evaluations do not always inform program design, policy decisions, and budget allocations. Moreover, monitoring and evaluation processes often do not incorporate sufficient local data, feedback, and participation of beneficiaries, and comparable standards are not consistently applied across the full range of foreign assistance programs.

Not later than 90 days after enactment of the act, and following consultation with the Committee, the Secretary of State and USAID Administrator shall jointly initiate a review of the quality of program evaluations, including: (1) the extent to which the sustainability of programs will be periodically evaluated after assistance for such program has ended; (2) the resources required to conduct such evaluations; and (3) the utilization of such evaluations in subsequent program design. Not later than 45 days after such review has been concluded, the findings shall be published on the Department of State and USAID Web sites.

*Rule Making.*—The Committee again notes the Department of State has, at times, loosely interpreted the Administrative Procedures Act of 1946 (5 U.S.C. 551 et seq.) when using an exception to the publishing of a proposed rulemaking related to a function of foreign affairs. The Committee notes that the exception should only be used if public rulemaking provisions “would clearly provoke definitely undesirable international consequences”.

#### REDUCING COSTS AND INCREASING EFFICIENCIES

Consistent with prior fiscal years, the Committee supports Federal department and agency efforts to reduce costs and increase efficiencies through coherent, deliberative, and inclusive processes that take into consideration the impact of such efforts to U.S. national security requirements.

*Contractor Bonuses.*—Federal departments and agencies funded by the act shall refrain from providing bonuses to government contractors that have failed to complete their contract in a satisfactory manner, including as a result of scheduling delays or cost overruns.

*Executive Meetings, Ceremonies, and Conferences.*—Federal departments and agencies funded by the act shall continue to achieve savings by reducing the costs of executive meetings, ceremonies, and conferences, and curtailing the purchase of commemorative or promotional items.

*Federally Funded Research.*—The Committee commends USAID for issuing the “Public Access Plan: Increasing Access to the Results of Federally Funded Scientific Research” (November 2016), and encourages USAID to continue to fully implement the plan. The USAID Administrator shall update the Committee not later than 90 days after the enactment of the act on progress made in this effort.

*Government Accountability Office Recommendations.*—Not later than 45 days after enactment of the act, the Comptroller General of the United States shall submit a report to the appropriate congressional committees, the Secretary of State, and the USAID Administrator detailing all outstanding recommendations included in U.S. Government Accountability Office [GAO] reports issued during calendar years 2015 through 2016 relating to the Department of State and USAID. Not later than 30 days after the submission of such report, the Secretary and Administrator shall submit a response to the Comptroller General and such committees on actions taken, or to be taken, to comply with such recommendations.

#### REORGANIZATION OR REDESIGN OF THE DEPARTMENT OF STATE

The process by which the Department of State and USAID intend to reorganize lacks clarity. Questions posed by the Committee remain largely unanswered, including the request for supporting data regarding a specific recommendation in the “U.S. Department of State Listening Report” (June 2017) to move “issuance of passports, visas, and other travel documents” from the Department of State to the Department of Homeland Security. The August 28, 2017, notification on special envoys and representatives raises further questions on the integrity of the process, as the Committee notes that any proposal for significant personnel changes should be a component of the reorganization or redesign.

In contrast to the current reorganization or redesign effort are the reflections on reorganization contained in the “Report on the Organization of the Department of State” (1946):

This study deliberately refrains from suggesting any magical remedy or broad plan of reorganization designed to cure all ills. Changes are needed, but they should not be prescribed until an accurate diagnosis is made of what is wrong. This study, it is believed, is the essential forerunner of change. It seeks to present the problem and thereby evoke thought and discussion. It aims to present historical background and details in the hope that future organizational changes will be made with more conscious thought and understanding by those responsible for leadership in the Department.

The Committee is concerned that the administration has a predetermined outcome for the reorganization or redesign.

#### REPORTS, NOTIFICATIONS, AND SPEND PLANS

Section 7019(b) of the act requires that reporting requirements in this report shall be fulfilled in the manner described.

Congressional notifications submitted by the Secretary of State and USAID Administrator for funds that are being reallocated prior to initial obligation, reprogrammed, or reobligated after deobligation, should, to the maximum extent practicable, contain detailed information about the sources of funds and why such funds are no longer intended to be used as previously justified.

The submission by the Department of State and USAID of one spend plan per account for each program for which a spend plan has been required has not achieved the intended purpose of im-

proving oversight of funds. Spend plans submitted pursuant to section 7076 of the act shall: (1) be submitted in the form of a single, comprehensive spend plan for each program identified; (2) include all intended sources of funds made available by the act for such program; (3) and conform to the definition of such plan under section 7034(r)(6) of the act.

#### TRANSFER AND REPROGRAMMING AUTHORITIES

The Committee continues transfer and reprogramming authorities under the D&CP, EDCS, and DCA headings, and in sections 7004(f); 7005; 7009; 7013(d); 7014; 7015(i); 7034(b)(12); 7034(i); 7041(h); 7045(a)(5); 7045(b)(4); 7057(d); 7058(c); 7060(a)(1)(A); 7061(a); and 7070(d) of the act.

In addition, the FAA provides the President with broad transfer and reprogramming authorities in sections 109 (22 U.S.C. 2151g); 451 (22 U.S.C. 2261); 492(b) (22 U.S.C. 2292a); 506 (22 U.S.C. 2318); 610 (22 U.S.C. 2360); 614 (22 U.S.C. 2364); 632 (22 U.S.C. 2392); and 634A (22 U.S.C. 2394-1).

Section 7019(a) of the act requires, with certain exceptions, that amounts designated in the respective tables referenced in this report shall be made available in such designated amounts and shall be the basis of the report required by section 653(a) of the FAA, where applicable. Federal departments and agencies funded in the act shall notify the Committee of any reprogramming, as required by section 7015 of the act, at the most detailed level of the CBJ, the act, or this report.

#### CONGRESSIONAL BUDGET AND IMPOUNDMENT CONTROL ACT OF 1974

The Committee is mindful of the discretion granted in law to Federal departments and agencies to oversee the execution of budgets. This discretion must be exercised consistent with all legal requirements and the expectations and intent of the Congress as expressed in the act and this report. Supreme Court decisions (especially *Train v. City of New York* (420 U.S. 35)(1975)) and the Congressional Budget and Impoundment Control Act of 1974 (title X of Public Law 93-344) [CBICA], limit the authority of the administration to reduce or withhold funding provided in law by action or inaction. Specifically, CBICA allows funds to be withheld only for a limited time if certain reporting requirements are observed, but any permanent action to reduce budget authority or prevent the obligation or expenditure of funds requires passage of legislation to that effect.

The Committee expects the heads of departments and agencies funded by the act to be familiar with the requirements of CBICA in considering the management and expenditure of funds appropriated by the act.

*Human Resources.*—The Committee recommends \$2,679,633,000 for all U.S. direct hire salaries at overseas and domestic U.S. diplomatic missions including \$134,613,000 for Public Diplomacy salary and benefit costs.

Funds appropriated under this heading shall support not less than 14,000 Foreign Service Officer [FSO] positions and not less than 11,000 Civil Service positions (excluding political appointees), which were the onboard Foreign Service and Civil Service levels as of September 30, 2016. Any proposed changes to these levels requires prior consultation with the Committee, and submission to the Committee of a detailed report explaining the reasons for such changes.

The Secretary of State shall continue A-100 entry-level classes for FSOs in a manner similar to prior years. The Committee notes that absent continuous recruitment and training of FSOs the Department of State will lack experienced, qualified diplomats in the mid- and long-terms. The decision to suspend or cancel A-100 classes shall be subject to the regular notification procedures of the Committee.

*Overseas Programs.*—The Committee recommends \$1,823,656,000 for the operational programs of Department of State regional bureaus, which are responsible for the conduct and implementation of U.S. foreign policy through bilateral and multilateral engagements. Funds support U.S. embassies, consulates, and other diplomatic posts worldwide, and provide myriad services to U.S. citizens living, working, studying, and traveling abroad, including those who are arrested and imprisoned in foreign countries.

The Secretary of State shall continue funding overseas inflation and Locally Employed Staff [LES] wage increases, including, as necessary, funds to annualize increases provided in fiscal year 2017, through funds made available in the Buying Power Maintenance account.

*Diplomatic Policy and Support.*—The Committee recommends \$774,957,000 for the operational programs of the Department of State functional bureaus to provide overall policy direction, coordination, and program management among U.S. missions abroad.

*Security Programs.*—The Committee recommends \$3,302,452,000 for the operation of security programs, including \$3,279,995,000 for WSP to protect diplomatic personnel, overseas diplomatic missions, information, residences, and domestic facilities. An additional \$476,879,000 is included within the Human Resources function for salaries for a total of \$3,756,874,000 for WSP.

#### EMBASSY SECURITY

The Committee recommends a total of \$5,814,174,000 for Embassy security, \$915,000,000 above the President's budget request and equal to the level recommended by the Benghazi Accountability Review Board [ARB]. Funds are allocated according to the following table:

EMBASSY SECURITY

[Budget authority in thousands of dollars]

Program/Activity	Fiscal year 2018 request	Committee recommendation
Worldwide Security Protection .....	\$3,756,874	\$3,756,874
Embassy Security, Construction, and Maintenance .....	1,142,200	2,057,300
Total .....	4,899,174	5,814,174

Section 7004(f) of the act provides the Secretary of State with the necessary flexibility to transfer funds between the D&CP and ESCM headings to implement the recommendation of the Benghazi ARB or to prevent or respond to security situations and requirements at diplomatic facilities abroad, following consultation with the Committee.

Not later than 45 days after enactment of the act, the Secretary of State shall submit to the Committee the status of Department of State implementation of GAO recommendations contained in “Embassy Evacuations: State Department Should Take Steps to Improve Emergency Preparedness” (July 2017) (GAO–17–714).

PROGRAM ISSUES

*Bureau of Arctic Affairs Feasibility Study.*—Not later than 180 days after the enactment of the act, the Secretary of State shall submit to the Committee a feasibility study on establishing a Bureau of Arctic Affairs, headed by an Assistant Secretary of State for Arctic Affairs, to take the lead in developing, coordinating, and carrying out U.S. foreign policy in the Arctic. The study shall address options for the appropriate placement of the Bureau within the organizational structure of the Department of State, and a framework for ensuring coordination with existing regional and functional bureaus on the full range of Arctic issues, including the resources required to establish such Bureau and the impact on personnel.

In addition, the Secretary shall concurrently submit a report to the Committee assessing accomplishments made during the U.S. chairmanship of the Arctic Council, along with a roadmap for the future of the Council pursuant to the Fairbanks Declaration’s guidance on developing a strategic plan for consideration in 2019, and including options for increasing the capacity of the Arctic Council Secretariat and the Secretariats of the Arctic Council Working Groups. The Secretary shall consult with the Committee prior to submitting the report and roadmap.

*Cultural Heritage.*—The Committee recommends \$6,500,000 for Cultural Heritage programs, including not less than five large-scale projects, and up to \$500,000 for emergency response to stabilize and protect from further desecration cultural heritage sites and antiquities that have been damaged by armed conflict, natural disaster, or the actions of extremists. The Committee recognizes the public diplomacy role of this program, as well as its contribution to preserving some of the world’s irreplaceable cultural heritage sites and antiquities. As in the past, the Department of State shall consult with the Committee prior to obligating funds for such purposes.

The Committee recommends \$1,000,000 for the Cultural Antiquities Task Force, which may be used for grants as authorized in section 7034(d)(3) of the act.

*Cybersecurity Report.*—Not later than 90 days after enactment of the act, the Secretary of State shall submit to the appropriate congressional committees an unclassified report, which may include a classified annex, that describes: (1) the steps the Department of State has taken since January 1, 2017 to improve the security of its classified and unclassified networks; (2) the cyber defense practices used by the Department; (3) the accountability structure for preventing intrusions into the Department's network and protecting the confidentiality of information on government-issued mobile devices abroad; (4) the intrusions into the Department's classified and unclassified networks during the previous 2 years, and steps the Department of State has taken to reduce the risk of subsequent intrusions; and (5) the steps taken by the Secretary of State to engage the global community on expected and acceptable cyber practices in the conduct of diplomacy.

*Delegation of Authority.*—The Committee believes that rescinding delegations of authority from the Secretary of State and the USAID Administrator to other senior level officials will impede the conduct of diplomacy and development abroad, as well as the basic operations of the Department of State and USAID.

*Department of State Workforce Diversity.*—The Committee recommends continued expansion of Department of State workforce diversity programs, and directs that qualified graduates of the Rangel International Affairs Graduate Fellowship Program and the Thomas R. Pickering Foreign Affairs Fellowship Program shall be inducted into the Foreign Service.

*Diplomatic Presence in Greenland.*—Not later than 180 days after enactment of the act, the Secretary of State shall submit to the Committee a report assessing the costs and benefits of establishing a diplomatic presence in Greenland. The study shall consider the future benefits and challenges for the United States should Greenland become an independent nation within the next decade.

*Directorate of Defense Trade Controls.*—The Secretary of State shall make publicly available on the Department of State Web site information regarding manufacturer annual registration fees received by category, the Department of State fund to which such fees are deposited, the annual balance of such fund, and a description of expenditures from such fund, including the amount and purpose of such expenditures. The Committee notes that the Department of State does not have an exemption for registration and other fees for the manufacturers of defense articles that do not export or import goods.

*Eligible Family Member Employment.*—The Committee recognizes the added-value of eligible family member [EFM] employment at diplomatic facilities abroad to the Department of State, USAID, and other Federal departments and agencies that are traditionally located at such facilities. In many instances, EFM positions are paid from consular fees, other non-appropriated funds, or International Cooperative Administrative Support Services funds. The Committee believes that the suspension of this program by the Sec-

retary of State is detrimental to the national security interest, and harmful to the safety and welfare of diplomats and dependents at embassies and consulates, particularly when positions such as physician assistant or security coordinator remain unfilled. Further, the suspension is a burden on U.S. taxpayers. For example, in Germany the cost associated with EFM employment is 89 percent less than direct hires, and 25 percent less than LES. In Nepal, the annual cost savings associated with EFMs is estimated at \$1,680,000.

Not later than 45 days after enactment of the act, the Secretary of State, in consultation with a broad representation of Chiefs of Mission, shall submit a report to the appropriate congressional committees assessing the cost-savings associated with EFM employment at diplomatic facilities abroad. The report shall also detail the impact of the suspension of EFM employment on Embassy and Consulate operations, and on other Federal departments and agencies.

*Expanded Professional Associates Program.*—The act provides funds for 250 full-time positions for the Expanded Professional Associates Program [EPAP], including 50 for Information Management. The Secretary shall staff EPAP at this level in fiscal year 2018, and shall consult with the Committee on the plan to sustain such level in subsequent fiscal years.

*Foreign Affairs Counter Threat Training.*—The Foreign Affairs Counter Threat [FACT] training course is an essential training program provided to diplomatic personnel and their families. The Committee supports current Department of State plans to continue FACT training without disruption by maintaining such training at the Interim Training Facility until the new Foreign Affairs Security Training Center [FASTC] is fully operational. The Secretary of State shall continue to submit semiannual progress reports to the Committee on the status of FASTC, including construction costs, transition plans, and efforts to find alternative uses for the Interim Training Facility.

*Global Engagement Center.*—The Committee notes that funds made available for the Global Engagement Center [GEC] in division B of Public Law 114–254 have not been obligated. In addition, the Secretary of State has not met the consultation and reporting requirements regarding the GEC under this heading in Senate Report 114–290. The Secretary of State shall meet such consultation and reporting requirements prior to the obligation of funds made available for the GEC by the act.

*Holocaust Era Assets.*—The Secretary of State and the Office of the Special Envoy for Holocaust Issues shall update their fiscal year 2017 assessment of: (1) national laws or enforceable policies in foreign countries regarding the return of, or restitution for, wrongfully confiscated or transferred Holocaust era assets; and (2) progress on the resolution of claims of U.S. citizen Holocaust survivors and their families.

*Human Rights Vetting.*—The Committee recommends not less than \$9,000,000 for salaries, technology, training, and other expenses to implement section 620M of the FAA (the Leahy Law).

*Personnel Report.*—Not later than 90 days after enactment of the act, the Secretary of State, in consultation with the USAID Administrator, shall submit a report to the Committee describing the im-

pact of Department of State and USAID personnel reductions implemented during the 1990s on the funding, operations, and staffing requirements of the Department and USAID during the period 2001 to 2016, particularly with respect to diplomatic operations in Iraq, Afghanistan, Pakistan, and other critical posts, and technical development expertise at USAID. The report shall include an analysis of the specific staff reductions by category during the 1990s (such as cuts to deputy assistant secretary positions by 25 percent, and general workforce positions by 2,200 from the period 1993 to 1996), and a detailed description of the requests by previous administrations to increase Department of State and USAID personnel from the period 2001 to 2016, including the justifications submitted to the Congress for such increases. The report shall conclude with an examination of lessons-learned from personnel reductions on diplomatic and development operations.

*Private Security Companies.*—The Committee again notes U.S. leadership in developing and promoting principles, standards, and a code of conduct based on international law to ensure that private security companies operating overseas respect the rule of law, act in accordance with the code of conduct, and participate in oversight and accountability mechanisms. The Secretary of State, in consultation with the Secretary of Defense, shall submit a report to the Committee not later than 90 days after enactment of the act on efforts to ensure adherence to such standards by private security companies contracted by the Department of State, USAID, and other Federal departments and agencies utilizing funds appropriated by the act and prior acts making appropriations for the Department of State, foreign operations, and related programs.

*Public Diplomacy-Educational and Cultural Exchange Programs.*—The Committee recommends not less than \$1,186,289,000 for public diplomacy and educational and cultural exchange programs and salaries, of which \$552,146,000 is under the D&CP heading and \$634,143,000 is under the ECE heading.

*Real Property.*—The Secretary of State shall help facilitate resolutions of commercial disputes for U.S. entities seeking return of real property seized, held, or expropriated by foreign governments, as appropriate.

*Trafficking in Persons.*—Funds made available under this heading for the Office to Monitor and Combat Trafficking in Persons are in addition to funds made available by the act for trafficking in persons [TIP] programs.

*Worldwide Aviation Support Services.*—The Committee underscores support for aviation services for the Department of State that fully meet safety and security requirements in a cost-effective manner, and notes with concern allegations of impropriety regarding the Worldwide Aviation Support Services contract solicitation. The Department of State OIG shall submit a report to the Committee detailing the extent of such allegations, and a determination of whether further investigation into the solicitation process is warranted.

The Secretary of State shall implement a plan to broaden the participation of high priority groups in exchange programs that have been traditionally underrepresented, such as youth and other individuals from rural and impoverished areas, and minorities.

The Secretary of State shall include in the operating plan required by section 7076 of the act fees estimated to be collected and available for obligation by the Bureau of Educational and Cultural Affairs, Department of State, in fiscal year 2018 and the uses of such fees, including the number of employees and contractors funded by such fees.

The Committee continues to support efforts to reduce the administrative costs of exchange programs and expects that any savings will be used to increase the number of participants in such programs.

*Cultural Property.*—The Committee supports implementation of the Convention on Cultural Property Implementation Act (title III of Public Law 97–446) in a manner consistent with prior years, including reviews conducted by the Cultural Property Advisory Committee pursuant to section 303(f) of such act to determine whether each State Party seeking or participating in a memorandum of understanding [MOU] with the United States is taking measures consistent with the Convention on the means of prohibiting and preventing the illicit import, export, and transfer of ownership of cultural property to protect its cultural patrimony.

*Gender and Alumni Programs.*—The Committee recommends funding for the Alumni Thematic International Exchange Series and the Women in Science Girls STEAM Camp.

*J. Christopher Stevens Virtual Exchange Program.*—The Committee continues to recognize the value of virtual exchanges as a means to broaden understanding and engagement between youth in the United States, Middle East, and North Africa in a cost-effective manner, and recommends \$5,000,000 for the J. Christopher Stevens Virtual Exchange program. The Committee intends that funds are made available for this program on a cost-matching basis, to the maximum extent practicable.

*Muskie Fellowships.*—The Committee again recognizes that the Muskie Fellowship Program has helped individuals from Eurasia and Central Asia to promote mutual understanding, build democracy, and foster the transition to market economies, and the act continues the requirement that a portion of Fulbright awards for this region are designated as Edmund S. Muskie Fellowships.

tion, operations, and maintenance; and \$158,818,000 is designated for OCO.

Funds are allocated according to the following table:

Not later than 180 days after enactment of the act, the Secretary of State shall review Embassy construction and rehabilitation processes, including project development, design, and construction, and submit a report to the Committee assessing whether the Excellence approach should be maintained and, if so, a description of the modifications necessary to ensure construction projects meet cost and schedule estimates. The Committee recognizes and appreciates the leadership of the U.S. Ambassador to the United Nations and the U.N. Secretary-General in advancing reforms within the United Nations.

*Cost-Benefit Analysis.*—Not later than 180 days after the enactment of the act, the Secretary of State shall submit to the appropriate congressional committees a cost-benefit analysis of each contribution made to an international organization receiving \$5,000,000 or less in the most recent report of U.S. contributions to international organizations submitted pursuant to section 4(b) of the United Nations Participation Act (22 U.S.C. 287b(b)). The analysis shall include an assessment of: (1) the extent to which the U.S. contribution and the mission of such organization align with the U.S. national interest; (2) the efficacy and cost effectiveness of the operations and programs conducted by such organization; and (3)

Committee recommendation .....	48,134,000

The Committee recommends \$48,134,000 for salaries and expenses of the International Boundary and Water Commission, United States and Mexico.

*Report.*—The Secretary of State, in consultation with the IBWC Commissioner, shall submit to the Committee not later than 45 days after enactment of the act an update of the report required in section 7045(g)(3) of the Department of State, Foreign Operations, and Related Programs, 2015 (division J of Public Law 113–235) detailing efforts to establish mechanisms to improve transparency of data on, and predictability of, the water deliveries from Mexico to the United States to meet annual water apportionments to the Rio Grande, in accordance with the 1944 Treaty between the United States and Mexico Respecting Utilization of Waters of the Colorado and Tijuana Rivers and of the Rio Grande, and actions taken to minimize or eliminate future water deficits to the United States.

*Southwest Border Pollution.*—The Committee is concerned that despite millions of dollars of U.S. infrastructure investments on both side of the U.S.-Mexico border over the past two decades, wastewater, trash, and sediment continues to flow from Tijuana, Mexico into San Diego County, resulting in unsanitary water conditions, pollution, and beach closures in coastal communities. The Secretary of State shall work with the IBWC Commissioner and the Government of Mexico to enhance efforts to mitigate pollution in the Tijuana River Valley, including to implement the recommendations from the IBWC’s “Report of Transboundary Bypass Flows into the Tijuana River” (April 2017) and to encourage the Government of Mexico to make additional investments to halt the discharge of waste into the United States.

## MATERNAL AND CHILD HEALTH

The Committee recommends \$829,500,000 for maternal and child health activities under this heading.

*Maternal and Child Survival.*—USAID shall continue to support programs aimed at ending preventable child and maternal deaths. The USAID Administrator shall submit a report to the Committee, which shall be posted on its Web site not later than December 31, 2018, detailing results in expanding evidence-based, highest-impact interventions on a country-by-country basis.

*Maternal and Neonatal Tetanus.*—The Committee recommends not less than \$1,000,000 for public-private partnerships specifically focused on providing low-cost vaccines for women of childbearing age to prevent tetanus in newborn children.

*Polio.*—The Committee recommends a total of not less than \$59,000,000 in the act for polio eradication efforts, including not less than \$7,500,000 under the ESF heading for programs for Pakistan and Afghanistan.

*Vaccines and Immunizations.*—The Committee recommends \$290,000,000 for a contribution to the GAVI Alliance. The USAID Administrator shall provide details on the planned uses of funds prior to making such contribution.

*Vulnerable Children.*—The Committee recognizes that the U.S. Government Action Plan for Children in Adversity's [APCA] initial 5-year framework will be completed in December 2017. The USAID Administrator shall submit a progress report to the Committee including a detailed description of how the displaced children and orphans funds have been spent, outcomes achieved, and a plan to renew the APCA framework.

The Committee encourages investment in technology that identifies and protects vulnerable children, facilitates case management, and reports outcomes, as well as programs that prevent unnecessary parent-child separation and increase the percentage of children living within family care instead of in institutions. The Committee encourages increased engagement with community and faith-based organizations in APCA and related programs, and shall take into account organizations of all sizes that have demonstrated expertise in family-based care.

The Committee recommends support for programs that address autism spectrum disorders, including treatment and the training of healthcare workers to better diagnose such disorders.

The Committee recommends not less than \$3,500,000 for assistance for blind children, in addition to funds otherwise available for such purposes, and USAID shall administer such funds in a manner that delivers the maximum amount of funds to beneficiaries.

## NUTRITION

The Committee recommends \$125,000,000 for nutrition programs under this heading, to be made available through USAID.

*Bio-fortification.*—The Committee supports the continued use of bio-fortification as part of global food security efforts.

*Malnutrition Programs in Laos.*—The Committee recommends \$3,500,000, in addition to funds otherwise available, to address malnutrition among children in Laos.

*Micronutrients.*—The Committee again recommends not less than \$33,000,000 for micronutrients, of which not less than \$22,500,000 is to address vitamin A deficiencies. The Committee recommends that nutrition programs, including micronutrients, also be funded by the Department of State and USAID within programs to combat Human Immune Deficiency/Acquired Immune Deficiency Syndrome [HIV/AIDS]. The Committee recommends not less than \$2,500,000 for the USAID/U.N. Children’s Fund [UNICEF] Iodine Deficiency Disorder program to prevent intellectual disability in children.

#### FAMILY PLANNING/REPRODUCTIVE HEALTH

The Committee recommends a total of not less than \$622,500,000 in the act for family planning and reproductive health programs, including \$544,000,000 under this heading, \$41,000,000 under the ESF heading, and \$37,500,000 for the United Nations Population Fund. The Committee recognizes that information and assistance for families interested in healthy timing and spacing of pregnancies can enhance maternal and child health and improve the chances of survival of women and children.

#### HIV/AIDS

The Committee recommends a total of \$6,000,000,000 for programs and activities to combat HIV/AIDS, of which \$5,670,000,000 is for the Department of State and \$330,000,000 is for USAID.

*Global Fund.*—The Committee recommends \$1,350,000,000 for a U.S. contribution to the Global Fund. The Committee continues a provision allowing the contribution to exceed the cap for fiscal year 2018, consistent with the limitation from 2004. The Committee confirms that the U.S. contribution should not exceed 33 percent of the encashment of funds to fulfill replenishment cycles at the Global Fund from 2019 onward.

*President’s Emergency Plan for AIDS Relief.*—The Committee recognizes that the President’s Emergency Plan for AIDS Relief [PEPFAR] plays a key role in HIV/AIDS prevention, care, and treatment globally.

The Committee encourages the Office of the U.S. Global Aids Coordinator [OGAC] to increase efforts to align existing programs for orphans and vulnerable children with the goals and objectives of the U.S. Government Action Plan on Children in Adversity.

The Committee recommends that OGAC develop a strategy as a follow on to the Accelerating Children’s HIV/AIDS Treatment Initiative that includes specific pediatric treatment targets and focuses on building capacity to ensure HIV diagnostics and antiretroviral treatment for children are scaled-up with a focus on early infant diagnosis, age-appropriate pediatric formulations of antiretroviral drugs, and adherence support.

The Committee continues to encourage OGAC to prioritize treatment for HIV-positive pregnant women to prevent mother-to-child transmission.

The Committee emphasizes that section 403(b) of the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003 (22 U.S.C. 7673(b)) requires 10 percent of total PEPFAR program funds to be allocated for programs focused on orphans and vulnerable children. The Committee again urges OGAC

to seek civil society and government partners to achieve the goal of decreasing the number of children living outside of family care due to HIV/AIDS.

*Vaccine.*—USAID shall continue to support research and development of a vaccine to combat the AIDS virus.

#### OTHER GLOBAL HEALTH ISSUES

*Birth Defects.*—The Committee supports programs that address remediable birth defects in order to reduce or eliminate newborn deaths and the long-term disability suffered by those who survive.

*Contagious Infectious Disease Outbreaks.*—The Committee recommends \$72,500,000 to combat pandemic influenza and other highly virulent viruses and emerging diseases.

In addition, section 7058(c) of the act provides additional authority to address emerging health threats, as described under such section in this report.

*Health Systems Strengthening.*—The Committee recognizes existing initiatives for health systems strengthening currently being managed by several Federal departments and agencies, but notes that a comprehensive inter-agency plan to ensure proper oversight of such investments does not exist. The USAID Administrator, in consultation with the Global AIDS Coordinator at the Department of State, the Director of the Centers for Disease Control, and the heads of other relevant Federal departments and agencies, shall develop a comprehensive inter-agency plan to strengthen the capacity of developing countries to effectively manage their national health systems with the goal of promoting country ownership and building resiliency.

*Human Papillomavirus.*—The USAID Administrator shall report to the Committee not later than 120 days after enactment of the act on ways to utilize low cost Human Papillomavirus vaccines to significantly reduce mortality from cervical cancer in high-prevalence, low-income countries.

*Malaria.*—The Committee recommends \$755,000,000, including a reprogramming of \$100,000,000 from title IX of division J of Public Law 113–235, for programs to combat malaria and continues to encourage USAID to support public-private partnerships; research and development; diagnostic and vector control tools; access and delivery of anti-malarial medicines, including new, effective pediatric formulations and alternatives to artemisinin combination therapies to counter resistance; and to continue efforts to develop new insecticides and a malaria vaccine.

The Committee reaffirms its support for the U.S. Global Malaria Coordinator, and the Secretary of State shall ensure that the Coordinator's authorities are fully implemented across relevant Federal departments and agencies.

The Committee encourages USAID to support a pilot trial in Africa for the world's first malaria vaccine, as well as the development of next-generation vaccines, including those that seek to interrupt malaria transmission.

*Neglected Tropical Diseases.*—The Committee recommends \$100,000,000 for continued support for USAID's integrated Neglected Tropical Diseases [NTD] program to eliminate NTDs, including intestinal parasites, schistosomiasis, lymphatic filariasis,

onchocerciasis, trachoma, and leprosy. The Committee supports research and development of NTDs, and notes the essential contributions of the private sector in improving diagnostic and therapeutic tools—and product innovation—to treat patients with NTDs.

*Research and Development.*—The USAID Administrator shall develop a new, 5-year strategy on health-related research and development, and submit an annual report to the appropriate congressional committees on the new strategy, which shall also be posted on the USAID Web site not later than 180 days after enactment of the act. The new strategy shall detail coordination with the Centers for Disease Control and Prevention and other relevant Federal departments and agencies, nongovernmental organizations [NGOs], and other private sector partners, in support of innovative global health product development to address critical gaps.

*Tuberculosis.*—The Committee recommends \$261,000,000, including a reprogramming of \$20,000,000 from title IX of division J of Public Law 113–235, for programs to combat tuberculosis, and USAID shall prioritize the use of U.S.-based entities for this purpose, consistent with the FAA.

**Sec. 7033. International Religious Freedom.**

Subsection (a) recommends not less than \$8,000,000 for the Office of International Religious Freedom, including not less than \$6,000,000 for the Office of the Ambassador-at-Large for International Religious Freedom (the Ambassador-at-Large), and not less than \$2,000,000 for the Special Envoy to Promote Religious

Freedom of Religious Minorities in the Near East and South Central Asia, including for support staff.

The Committee recognizes the importance of the Ambassador-at-Large to U.S. foreign policy interests, and encourages the Secretary of State to ensure that the Ambassador-at-Large has both the resources and authority necessary to advance international religious freedom as an important element of U.S. foreign policy.

*Anti-Semitism Programs.*—The Committee recommends not less than \$1,000,000 for programs to combat anti-Semitism abroad. The Secretary of State shall consult with the appropriate congressional committees on plans to counter anti-Semitism, racism, and intolerance in Europe, including through new initiatives supported by the Organization for Security and Cooperation in Europe.

*Atrocity Prevention.*—The Committee recommends not less than \$500,000 under the D&CP heading and \$250,000 under the USAID OE heading to train personnel at the Department of State and USAID in genocide and mass atrocity prevention and to support full participation in the Atrocities Prevention Board [APB], including staff to carry out the responsibilities of the APB. The Under Secretary of State for Civilian Security, Democracy, and Human Rights shall administer such funds.

In addition, subsection (d) recommends not less than \$5,000,000 under the INCLE and ESF headings for atrocities prevention programs to prevent atrocities and to implement the recommendations of the APB, including with respect to the evaluation required by section 7033(d) of division K of Public Law 114–113. The uses of such funds shall be the responsibility of such Under Secretary.

*Countries of Particular Concern.*—The Committee recognizes the importance of the proper designations of countries of particular concern [CPC] for religious freedom, and urges the President and the Secretary of State to update the CPC list annually. If the situation in a given country calls for such country to be designated as a CPC for religious freedom prior to the annual review, the President shall make the designation and promptly update the CPC list. If the U.S. Commission on International Religious Freedom recommends a country for CPC designation, and such country is not designated as a CPC, the Secretary of State shall provide the rationale for such action to the appropriate congressional committees within 30 days of such decision.

*Curriculum Report.*—The Committee continues to recommend funds for the development of an international religious freedom curriculum for FSOs, particularly entry level diplomats, to be incorporated into mandatory orientation training programs. The Secretary of State shall report to the Committee not later than 30 days after the enactment of the act on the status of implementation of the training program, and the development of a religious freedom curriculum.

*Sanctions.*—The Committee notes that Congress has provided the President with sanction authority in section 212(a)(2)(G) of the Immigration and Nationality Act (8 U.S.C. 1182) and section 1263(a) of Public Law 114–328 for use against government officials responsible for egregious violations of human rights, especially religious freedom. Not later than 90 days after the enactment of the act, the Secretary of State shall submit a report to the Committee detailing:

(1) the use of such sanction authority, including how many times each authority was used in the prior 3 fiscal years; (2) the justification for the use of such authority; and (3) the criteria used for determining when it was appropriate to use such authority.

**Sec. 7034. Special Provisions.**

*Assistance to Eliminate Torture.*—Not later than 90 days after enactment of the act, the Secretary of State shall submit a report to the Committee detailing the obligation and expenditure of funds in fiscal year 2017 to implement section 7066(b) of Public Law 115–31.

*Forensic Assistance.*—Subsection (b)(4)(1) of the act includes not less than \$10,000,000, in addition to other funds in the act that are available for assistance for countries, for forensic assistance in countries where large numbers of people were killed or forcibly disappeared and are presumed dead as a result of armed conflict. The Committee recognizes that there is an ongoing need for DNA analysis and identification of exhumed remains, including in Colombia, El Salvador, Guatemala, Iraq, Sri Lanka, and Syria, and for judicial investigations and prosecution of those responsible for crimes against humanity and other gross violations of human rights. The Secretary of State shall consult with the Committee on the proposed uses of funds. The Assistant Secretary of State for Democracy, Human Rights, and Labor shall administer such funds.

*Inhumane Prison Conditions.*—For purposes of subsection (b)(5), the Committee intends that funds shall be used to eliminate inhumane conditions (including the excessive use of solitary confinement and the high incidence of prolonged pre-trial detention) that cause harm to human health.

*Local Sustainability Awards Program.*—The Committee is concerned that USAID programs are often unsustainable, particularly in countries with weak and corrupt institutions; lack local buy-in; and are conducted by large contractors and NGOs at unnecessary expense. Small local and U.S. NGOs and contractors have had difficulty in obtaining USAID funding, including for meritorious unsolicited proposals, and sub-awardees are not sufficiently involved in project design.

The Small Grants Program [SGP] was established by the Committee to provide a mechanism to address these concerns, including to reform the former Development Grants Program which was not implemented by USAID as intended by the Congress. Subsection

(p)(3) renames the SGP the Local Sustainability Awards Program [LSAP]. The Committee recommends not less than \$47,000,000 for the LSAP in fiscal year 2018.

The USAID Administrator shall post on the USAID Web site information describing how the LSAP will be used to promote locally owned and led development efforts that have as their primary goal the sustainability of results, by supporting: (1) meritorious unsolicited proposals from eligible partners; (2) significant local investment in program design and priority-setting; (3) experimental prime-sub award structures (either acquisition or assistance) pairing ineligible partners with eligible partners to pilot closely monitored partnerships, to ensure that large contractors and NGOs minimize overhead and empower small, locally connected subawardees in all aspects of programming (including but not limited to project design, implementation, monitoring, evaluation, and communication with USAID); (4) feedback mechanisms connecting beneficiaries, implementing partners, and USAID in order to maximize communication about the efficiency and effectiveness of programming, and the sustainability of results; (5) a systems approach to understanding and addressing the underlying factors that influence development outcomes; (6) comprehensive risk assessment that focuses on risk that a program will fail to attain local ownership of development solutions, the development process, and the sustainability of results; and (7) a culture of learning, experimenting, and sharing for the benefit of USAID as a whole. Meritorious unsolicited proposals are those which include promising ideas outside of existing plans derived from traditional USAID design activities. These may be developed independently of USAID, or through collaborative efforts, as permitted by the Federal Acquisition Regulations.

The LSAP is not a substitute for agency-wide policy, personnel, and procurement reforms that should include career-enhancing incentives and opportunities for USAID personnel to devote the time necessary to build relationships with, and support initiatives of, local organizations and communities that lack the knowledge or ability to compete for USAID funding. The USAID Administrator shall report to the Committee not later than 180 days after enactment of the act on steps already taken and intended to be taken to implement the requirements under this heading, as well as an agency-wide strategy to prioritize support for demand driven, locally-owned sustainable development. The strategy should be based on input from Local Solutions, LSAP, a broad selection of relevant USAID stakeholders (such as the Offices of Acquisition and Assistance, General Counsel, and Budget and Resource Management), and anonymous input and suggestions from USAID personnel globally. The report should include an assessment of lessons-learned and identify any obstacles, regulatory or otherwise, that may require changes in policy and/or legislation to overcome.

*Program to Leverage Additional Contributions.*—Subsection (c)(2) makes funds available to leverage additional contributions for the World Food Programme [WFP] from sources other than the U.S. Government. The Committee notes with concern that the Gulf Cooperation Council [GCC] countries only contributed a total of \$678,332,161 to the WFP between 2012 and 2017. Over the same

period, the U.S. contribution is estimated to be \$11,500,000,000. The Secretary of State and USAID Administrator shall use the authority of subsection (c)(2) to encourage GCC countries to increase their contributions to WFP.

*Protections and Remedies for Employees of Diplomatic Missions and International Organizations.*—With respect to the implementation of section 203(a)(2) of the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (Public Law 110–457), the Secretary of State shall consider the following as sufficient to determine that a diplomatic mission “tolerated such actions”: the failure to provide a replacement passport within a reasonable period of time to a T-visa recipient; the existence of multiple concurrent civil suits against members of the diplomatic mission; or a failure to satisfy a civil judgment against an employee of the diplomatic mission.

Sec. 7040. Limitation on Assistance for the Palestinian Authority.

Sec. 7041. Middle East and North Africa.

*Bahrain.*—The Secretary of State shall update the report required under the FMF heading in Senate Report 114–79 in the manner described, and work with the Government of Bahrain on implementation of reforms that provide greater rights and opportunities for the people of Bahrain.

The Committee remains concerned that restrictions on peaceful dissent and free expression in Bahrain may have the unintended consequence of increasing instability in that country.

*Egypt.*—Subsection (a)(2)(A) of the act recommends not less than \$10,000,000 for Egyptian students with high financial need to attend not-for-profit institutions of higher education that meet standards equivalent to those required for U.S. institutional accreditation by a regional accrediting agency recognized by the U.S. Department of Education. Students should be eligible for scholarships based on need, outstanding academic record, and leadership potential to contribute to the long-term political, economic, and social development of Egypt. The curriculum of such institutions should encourage critical thinking and be taught in the English language.

The act provides that funds appropriated under the ESF heading for assistance for Egypt shall be made available for development programs in the Sinai. The Committee notes that efforts by the Government of Egypt to establish security and stability in the Sinai will not be achieved through military force alone, and that a comprehensive development strategy is necessary to achieve this end. The Secretary of State shall consult with the Committee on the proposed uses of funds.

Not later than 90 days after enactment of the act, the Secretary of State, in consultation with the Secretary of Defense and the Government of Egypt, shall submit a report to the appropriate congressional committees describing U.S. policy regarding cash-flow fi-

nancing for assistance for Egypt made available under the FMF heading.

Sections 7034(o)(1) and (2) of the act provide authority for loan guarantees and an enterprise fund for Egypt, respectively.

*Iraq.*—The Committee recommends \$969,109,000 for diplomatic operations in Iraq under the D&CP and ESCM headings.

The Committee supports the use of funds made available under section 7004(e)(1) of the act, and similar provisions in prior acts making appropriations for the Department of State, foreign operations, and related programs, for security upgrades and projects at the Baghdad Diplomatic Support Center.

The Committee notes the need for replacement of fully armored vehicles in Iraq, particularly at Consulate Basrah, and expects the provision of such vehicles to be a priority for the Department of State.

Not later than 90 days after enactment of the act, the Secretary of State, in consultation with the Secretary of Defense, shall submit a report to the Committee detailing the number of personnel in Iraq under Chief of Mission authority, and other individuals supported by Department of State operations.

Funds made available for the Kurdistan Region of Iraq [KRI] under the ESF heading shall be made available for programs to further economic reforms, diversify the economy, develop agricultural opportunities, and support the creation of small and medium-sized enterprises. Additional assistance is available under the IDA and MRA headings to mitigate the impact of IDPs and refugees in the KRI.

The Secretary of State and USAID Administrator shall consult with the Committee on the proposed uses and management of funds made available by the act for the Marla Ruzicka Iraqi War Victims Fund.

The Committee expects the administration to conduct effective monitoring of the use in Iraq of U.S. assistance for training and equipment recommended under the FMF heading.

The Committee again notes that sections 620A and 620G of the FAA restrict assistance to any country the Secretary of State determines has repeatedly supported acts of international terrorism and require the withholding of assistance to the government of any country that provides assistance to such country so determined by the Secretary, respectively. Hezbollah has been designated a FTO pursuant to section 219 of the Immigration and Nationality Act (8 U.S.C. 1189), as amended, since 1997. The Committee again ex-

pects that no funds made available by the act will directly or indirectly benefit or otherwise legitimize Hezbollah, including within the Government of Lebanon, or any other FTO operating in Lebanon.

The Committee recommends \$12,000,000 for scholarships for students in Lebanon with high financial need at not-for-profit educational institutions in Lebanon that meet standards comparable to those required for U.S. accreditation, to be awarded on a competitive basis. Students graduating from public and private high schools in Lebanon should be eligible for such scholarships if they demonstrate financial need and meet the academic requirements. In addition, the Committee recommends \$2,000,000 from funds made available for the Relief and Recovery Fund to continue the pilot program at such institutions to establish a degree and/or certificate program for refugees in Lebanon, of any nationality, who have completed secondary education.

*Central America.*—For purposes of subsection (a)(1), the Secretary of State shall work to establish a cost-matching requirement that leverages from governments in Central America \$5 for every \$1 appropriated by the act for implementation of the U.S. Strategy for Engagement in Central America.

The updated, multi-year spend plan required in subsection (a)(2) shall include: (1) an explanation of how funds will be prioritized to address the key factors in countries in Central America that contribute to the migration of undocumented Central Americans to the United States, the incidence of crime in the United States by individuals with ties to Central American-based criminal organizations, and the flows of illicit narcotics and money into the United States; and (2) a detailed description of 3-year, 5-year, and 10-year goals and benchmarks for specific economic, security, and governance indicators, against which the long-term success of the U.S. Strategy for Engagement in Central America should be measured.

The Secretary of State shall submit to the Committee any updates to the U.S. Strategy for Engagement in Central America in a timely manner.

The Committee recognizes that long-term, sustained economic growth for Central America can be significantly facilitated through regional economic integration, leveraging all of Central America's economies to achieve a globally competitive investment climate.

The Committee recognizes the importance of encouraging small and medium-size enterprise growth in the Northern Triangle of Central America as a crucial generator of employment in the formal economy, to further U.S. interests of economic development and improved security in the region. The Secretary of State and USAID Administrator shall consider positively each country's respective ease of doing business, especially for small and medium-size enterprises, when allocating funds.

The Committee remains concerned with the extent that corruption has permeated the Northern Triangle countries of Central America due, in part, to the weakness of respective judicial systems and cultures of impunity. The Committee recognizes that independent Attorney Generals are essential to combating corruption, and recommends funding to support their offices in such countries.

The Committee reaffirms its support for the International Commission against Impunity in Guatemala [CICIG] in strengthening the rule of law by combating corruption and impunity, and directs the Secretary of State, in consultation with the heads of other relevant Federal departments and agencies, to make available to CICIG and the Guatemala Attorney General, if requested, any information available to the Secretary that could assist in their investigations and prosecutions, and to seek similar support for such investigations and prosecutions from the heads of other relevant Federal departments and agencies. Not later than 90 days after en-

actment of the act, the Secretary of State shall report to the Committee on steps taken to provide such information.

The Committee reaffirms the importance of the Government of Guatemala fulfilling its commitment under the financing agreement for the Chixoy Reparations Plan in a timely manner.

The Secretary of State shall consider assistance provided by the central Government of Honduras to the victims of the May 2012 killings at Ahuas, and its support for a credible and thorough investigation of the death of Berta Caceres and the killings of other civil society activists and journalists, in determining amounts of assistance for the Government of Honduras.

The Committee recognizes that the ability of the Mission to Support the Fight against Corruption and Impunity in Honduras [MACCIH] to successfully carry out its mission depends on the willingness of the Government of Honduras to fully cooperate with investigations and prosecutions by MACCIH and the Honduran Attorney General, including providing access to documents and other information, and to implement reforms of the electoral and judicial systems recommended by MACCIH including enactment of an effective plea bargaining law.

The Secretary of the Treasury shall instruct the United States executive directors to the World Bank and the Inter-American Development Bank to vote against any loan, credit, guarantee, or other financing, except to meet basic human needs, for the central government of a country whose officials act to obstruct justice or otherwise impede the functions of CICIG, the CICIG Commissioner, the MACCIH, or the MACCIH Spokesman.

The Committee recommends that of funds made available under the DA heading for Central America, not less than \$12,000,000 shall be transferred to the Inter-American Foundation.

The Committee recommends not less than \$5,000,000 to support efforts by the U.N. *Colombia.*—Subsection (b)(1) recommends not less than \$391,253,000 for assistance for Colombia, including to implement a peace agreement between the Government of Colombia and illegal armed groups in accordance with constitutional and legal requirements in Colombia. The Committee understands that the Government of Colombia will invest substantial political and economic capital in the implementation of the peace agreement.

Subsection (b)(2) provides that no funds in the act or prior acts making appropriations for the Department of State, foreign operations, and related programs for assistance for Colombia may be made available for payment of reparations to conflict victims or compensation to demobilized combatants associated with the peace agreement.

The Committee is concerned that representatives of Afro-Colombian, indigenous, and other minority groups, as well as rural women, are not sufficiently integrated into the process of implementing the peace agreement, and urges the Government of Colom-

bia to prioritize engagement with these communities, including through economic and social development programs. The Committee underscores the importance of security and stability in formerly-held FARC areas, particularly in the Pacific coast region.

The Committee continues to support programs in partnership with the Government of Colombia and NGOs to protect biodiversity and indigenous reserves in Colombia, and recommends not less than \$5,000,000 for such programs.

The Secretary of State shall update the spend plan required under this subsection in the Joint Explanatory Statement accompanying division J of Public Law 115–31.

In accordance with subsection (b)(5), 20 percent of the funds under the INCLE heading that are made available for assistance for Colombia may be obligated only if the Secretary of State certifies and reports to the Committee that the counternarcotics strategy of the Government of Colombia is designed to: (1) significantly reduce illicit drug production; (2) encourage voluntary eradication by providing viable, licit alternatives to coca and opium cultivation; and (3) strengthen the capacity of the Office of the Attorney General to investigate and prosecute corruption, money laundering, and other drug-related crimes.

In accordance with subsection (b)(6), 20 percent of the funds under the FMF heading that are made available for assistance for Colombia may be obligated only if the Secretary of State certifies and reports to the Committee that: (1) the Peace Tribunal and other judicial bodies within the special jurisdiction for peace are independent and have authority to document “truth declarations” from perpetrators of gross violations of human rights and to sentence such perpetrators to meaningful sanctions, including guarantee of non-repetition and deprivation of liberty; (2) the Government of Colombia is continuing to dismantle illegal armed groups, taking effective steps to protect the rights of human rights defenders, journalists, trade unionists, and other civil society activists, and protecting the rights and territory of indigenous and Afro-Colombian communities; and (3) military personnel responsible for ordering, committing, or covering up cases of false positives are being prosecuted and appropriately punished, including removal from positions of command.

Sec. 7078. Global Internet Freedom.

*Broadcasting Board of Governors.*—The Committee recognizes that BBG language services create programs for the Internet and social media platforms, and work with local audiences, journalists, and broadcasters to circumvent Internet censorship through the production and distribution of guides on circumvention techniques, Quick Response codes to directly link to blocked Web sites, and training journalists on circumvention tools.

The Committee recommends \$71,477,000 for BBG program delivery costs (including shortwave, mediumwave, FM, satellite, Internet freedom and affiliates), which is 9.1 percent of the total amount recommended for IBO. *Peer Review.*—The Department of State and BBG shall make any new Internet freedom tool or technique funded in fiscal years 2017 and 2018 available for peer review by an independent organization to evaluate the comparative value of such tool or technique over others previously developed.

*Prioritization.*—The Department of State, USAID, and the BBG shall prioritize Internet freedom programs funded by the act to countries which obstruct Internet access, through legislation, regulation, and firewalls.

*Strategic Focus.*—Effective Internet freedom programs must support the goals and objectives of clear and comprehensive strategies, including the President's International Strategy for Cyberspace (May 2011) and the Department of State International Cyberspace Policy Strategy (March 2017). Such programs are comprised of interdependent components, including the provision of tools and techniques that enable individuals to use circumvention technology to access and disseminate information; training for activists on protection and detection avoidance; and coordinated civil society efforts to challenge legislation, regulations, and laws that seek to re-

strict Internet freedom. The Committee encourages the Secretary of State to review and update such strategies.
